The others who have been discharged, or over four hundred thousand, have been fully paid off and mustered out. The rapidity with which this part of the work is performed may be inferred from the fact that official figures in the Department at Washington shows there have been mustered out and paid off, during the last thirty days 260,000. The recent order of the War Department will probably muster out about half of Sheridan's troops, and paymaster Wilson starts to morrow.

Rumors of contemplated Cabinet changes are circulating again. How much foundation they have, in fact, no one seems to be able to say. John Covode and John W. The probabilities are decidedly against immediate changes.
